**Small Block Chevy V8 —SBC—Engine Specifications**

It would not be until the 1985 model year when the Corvette received a new Tuned-Port Injected (TPI) 350 CID (5.7 liter) V8, that the Corvette's horsepower would be back up to 230. Unlike many other performance cars of the day Chevrolet didn't advertise with a badge or decal the displacement of the L-82 in either cubic inches or liters – which was popular during this time.
