CG - CloudEOS and vEOS Router Config Guide - Arista

The configuration and guidance within the document is based on the platforms and EOS release of table 1.0. Arista MLAG technologyTable 1.0. Arista's Multi-Chassis LAG (MLAG) technology provides the ability to build a loop free active-active layer 2 topology.

Arista EOS Central - VXLAN bridging with MLAG Configuration. The following will provide instructions on how to configure MLAG on a pair of Arista Networks switches running EOS.

Download Free Arista Config Guide

MLAG allows one to interconnect two Arista switches and use them as one logical switch for the purpose of L2 protocols. A simple MLAG setup is shown in Figure 1 and 2.
