Fronius IG 4000 The powerful, reliable and light weight PV inverter series. Higher yield due to work-sharing is achieved by linking the two power circuits using the MIX™ concept, Fronius' optimized master-slave system. In the part-load range only one of the two power stage sets operates, while both work together at full-load.

### Fronius IG 4000, 4kW,240 VAC Inverter

The TransPocket 4000 Cel manual electrode power source has an output of 380 A. Fully digitised, the TransPocket 4000 guarantees unique reproducibility of the welding result and multiprocess ability. As the name suggests, the power source is completely cellulose-compatible, even in the vertical-down position.
