Fluid: Transmission fluid is very important to an automatic transmission. All of the magic happens in the fluid. Most cars come with red transmission fluid, good to know if you are looking for a leak. Filter: All of that fluid has to be clean for your car to shift gears at the right time. To keep things fresh, your transmission has a filter to catch any gunk.

[How to Diagnose Automatic Transmission Problems](#)

It is necessary to determine the type of automatic transmission in order to be able to purchase consumables and spare parts for repairing the box. It is also worth asking about this issue if you decide to purchase a used car. In this case, the buyer should check the vehicle using the VIN code.
