The idea of offering information from the Internet in a native Mac search interface intrigued developer Dan Wood, who founded a company called Karelia and built a tool named Watson. This \$30 application was intended to be a companion to Sherlock (get it?) and supported way more internet functionality than Sherlock.

What Does It Mean When Apple "Sherlocks" an App?

In the Company of Sherlock Holmes, edited by Laurie King, is a rather entertaining anthology of short fiction inspired by the Conan Doyle stories. There us, of course, a wide range of approaches, some of which feature Holmes and Watson themselves, others which reveal the exploits of characters based on Holmes and his venerable associate, or ...
