electromagnetic radiation | Spectrum, Examples, & Types ...

This peculiar, specialized, technical, usage of the word "cause" is not that of everyday English language. Rather, the translation of Aristotle's αἰτία that is nearest to current ordinary language is "explanation." In Physics II.3 and Metaphysics V.2, Aristotle holds that there are four kinds of answers to "why" questions:

Four causes - Wikipedia

Relating Chemistry to Other Sciences . An important point to remember is that chemistry is a science, which means its procedures are systematic and reproducible and its hypotheses are tested using the scientific method.Chemists, scientists who study chemistry, examine the properties and composition of matter and the interactions between substances.
