Toyota Hilux Diesel engine check - 2L 3L 5L - YouTube

In 2L-T engine's case it seems that if the owner is hammering the engine then the head gasket problems quickly arrive, so it means that the engine is not built well enough to withstand abuse. When you think about it, the engine makes max torque at something like 2000-2300 RPM probably so there's really no reason to push it any further. People reporting problems are also the same people ...
