Our Visual Flight Rule guides provide clear regulations for pilots to see where the aircraft is going when the weather is clear enough to allow for it. Always be prepared and purchase one of our VFR flight guides to ensure safe and hassle-free flying. Be sure to check out our full range of flight guides whilst you're browsing here at Flightstore.

UK VFR Flight Guides | Pooleys | AFE | Jeppesen at Flightstore
As a VFR pilot, you may have flown exclusively with your transponder code set to 1200, if given flight following, you will be asked to enter a unique code. The controller will advise when radar contact is established. As a VFR aircraft, altitude is the pilot's discretion unless there has been an explicit assignment by ATC for traffic purposes.

Flight Guides/Ireland VFR Flight Guide/Charts and Guides
Visual flight rules are a set of regulations under which a pilot operates an aircraft in weather conditions generally clear enough to allow the pilot to see where the aircraft is going. Specifically, the weather must be better than basic VFR weather minima, i.e. in visual meteorological conditions, as specified in the rules of the relevant aviation authority. The pilot must be able to operate the aircraft with visual reference to the ground, and by visually avoiding obstructions and other aircra

Visual flight rules - Wikipedia
The Visual Flight Rules Guide aims to help VFR pilots fly safely anywhere in Australia.
