On Saturday I disassembled the area where the Dualogic robot is located and I have seen there is oil missing from the oil reservoir tank. My question is if you know where can I get information about what to replace (i.e. to find the oil leakage). I bought the Panda workshop manual from Haynes, but it doesn't include information about Dualogic.

The 508 Balilla was a compact car designed and developed by Fiat in 1932. It was, effectively, the replacement of the Fiat 509, although production of the earlier model had ceased back in 1929. It had a three-speed transmission (increased to four in 1934), seated four, and had a top speed of about 50 mph (80 km/h).
